13 February 2018

To whom it may concern,

It's my pleasure to provide this letter of recommendation for Miss Samantha Watson, Passport No. 720113273

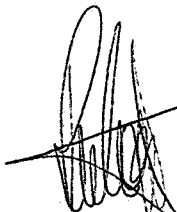

Motor Yacht Al Lusail is a New Build Lürssen, 123m, luxury private yacht managed closely by the Owning Company and the Yacht Management Company, Fraser Worldwide.

Miss Samantha Watson has been employed in the capacity of Purser on board Motor Yacht Al Lusail from the 5 February 2017 to the 17 February 2018. She was hired towards the end of the build stage of the vessel where she worked closely with the Management Company and successfully implemented a complete new structure including operational procedures for crew admin, HR, SEA's, crew logistics, talent acquisition and working with heads of departments to ensure smooth, efficient management of financial matters, purchasing and provisioning logistics.

Samantha has the ability to delegate and is an exceptional communicator, she is also extremely organised, diplomatic and versatile. She possesses accuracy, attention to detail, solid skills, strong working knowledge and experience in yachting which has enabled her to produce exceptional-quality work and can be relied upon by each of the Heads of Department and her rotational Captains.

Her strong interpersonal and communication skills have allowed her to develop productive working relationships with the crew which go beyond what is required from her in order to effectively perform her role. Samantha has proved countless times that she is a vital team player by ensuring that the operationality of the vessel is run soundly and without hassle. During her tenure onboard Samantha has shown an excellent level of professionalism and has carried out any task given to her to the highest of standards. She has a great attitude and is well liked by the rest of the crew.

Over the last year we respect her decision to move on and pursue her personal goals and ambitions and highly recommend her for employment without reservation. Please let me know if you need further information.
